Change of Company Name

We have recently changed the name of our business from **ASG (Aircraft Technical Services) Limited** to **Charles Taylor aviation (asset management) Limited**.

There has been no change in management and we will continue to provide the same products and services on which we have built our reputation in the industry.

On 6th May 2009 Charles Taylor adjusting, the market leader in combined disciplines for specialist risk consultancy services, announced the acquisition of ASG (Aircraft Technical Services) Limited. The current economic climate is leading to an enhanced requirement for the companies services, with particularly strong demand from financiers and leasing companies seeking to protect their assets. In response to the strong demand Charles Taylor aviation (asset management) has an ongoing expansion plan and is currently recruiting talented professionals to join our team.

For information regarding the range of products and services offered by Charles Taylor aviation (asset management) please see the company overview section on page 2 of this Aviation Industry Update, or please visit:
